How to Use this Booklet

Look in the Contents to see the type of resource you are looking for, and go to that page.

Look on those pages and follow the leads.

If you cannot find what you need there, consult the section *Helpful Internet Sites* on page 6.

Phone numbers are given for the country of origin. If outside the country then the international code for that country must be added.

May God, who is able to do immeasurably more than all we ask or imagine, meet all your needs according to His glorious riches in Christ Jesus

(Eph. 3:21; Phil. 4:19).

Acknowledgements

We gratefully acknowledge the many people who have assembled useful information of which we have made use. We cannot list all the hundreds of sources but would like to mention especially the Memca briefing February 2003 compiled by Brenda Bosch, YWAM Member Care Training, and the excellent book *Building Networks* published by AD2000. We are also most grateful for help given by Norman Longden in typesetting and layout, and Keeling and Rosemary Anthony for advice and weblink checking.

We checked all the information at the time of publishing but contact information is constantly changing. Although nearly all of the resources are from evangelical organisations, we cannot vouch for the standard or value of those materials that are mentioned.
